

MAXI bins Small parts storage

The comprehensive range of Maxi storage bins provides a versatile, modern storage and handling solution for all kinds of items.

Maxi bins can be stacked one on top of the other, or hung from a range of louvred panels, to give easy access and effective use of storage space. With colour-coding, label holders and dividers, Maxi bins can be bought individually, or supplied as part of an integrated storage system.

Strength in quality

Dexion is recognised around the world for the highest quality design and manufacturing standards. Maxi is designed and manufactured to ISO 9001 international standards.

Strength in manufacture

Made from tough, high grade polypropylene, Maxi bins are extremely durable, resistant to both oil and water and designed to stand up to constant use in demanding working environments.

Maxi bins come in seven sizes and up to four attractive colours. When used with the wide range of support systems and accessories available Maxi can be tailored to fit your application precisely.

MAXI bins

Wide, flat ledge with raised outer lip and locating lugs for easy stable stacking.

Easy-to-insert, lock-in dividers for segmenting bins from left to right. Dividers are also available for segmenting bins front to

Rigid design, manufactured from tough, durable polypropylene.

Label holders are angled for easy reading and bar code scanning.

A wide range of plated steel hooks and painted spigots are available for use with louvred steel panels

Large label holders for easy identification and coding.

Recessed panels give extra rigidity and provide internal locating slots for dividers.

Angled label holders, for easy reading and bar code scanning.

Maxi bins – perfect for use in the warehouse, workshop, stores or office.
